

Mirlan Nurbekov

Software engineer

I am a well-educated software engineer with strong knowledge and experience in project and event management, boasting nearly seven years of working experience in an international environment. As a software engineer I am skilled in programming, building complex queries, stored procedures and functions, coordinating complex schedules, managing essential administrative tasks, projects, and facilitating effective communication across diverse cultural environments. I am fluent in English and Russian, demonstrating proficiency in translating official documents and engaging in multilingual interactions.
